

ERIK ASENSIO

Full Stack Web Developer

Hello I'm Erik, I'm 18 years old and I consider myself constant and ambitious, I've always worked 100% on my projects and I've prepared myself as a Full Stack Developer in the best way I could, I started being self-taught at 15 years old. I love team-working, I think that being able to explain and make others understand is the best way to lay down a concept.

Badalona, Barcelona, Spain
